Product/Chemical Name: 70% Glycolic Acid Peel

Formula: 70% Glycolic Acid

Physical Description: Clear (sometimes hazy) liquid.

Special Hazards: Use in a well ventilated area away from alkalis, oxidizing agents and moisture.

Unusual Fire/Explosion Hazards: None.

Extinguishing media: Not applicable.

Reactivity: Stable

Hazardous Decomposition Products: Not available

Spill or leak Procedures

Action: Dilute with a dilute Sodium Bicarbonate solution and take up with absorbment material. Place into containers for later disposal.

Disposal Method: To be performed in compliance with all current local, state & Federal Regulations.

Threshold Limit Value: N/A

Overexposure Effects: Caustic to skin and eyes, can cause serious burns. Is toxic to the lungs. Can cause organ damage if ingested or if absorbed through the skin over a period of time.

Potential Carcinogen: No

First Aid Procedure:

Skin: Wash with soap and water. Get medical attention.

Eyes: Check for and remove any contact lenses. Flush with water for 15 minutes, occasionally lifting upper and lower eye lids, until no evidence of chemical remains, continue flushing with normal saline until the pH has returned to normal (30-60 minutes), get medical attention immediately.

Ingestion: Check for and remove any dentures. Do not induce vomiting (unless directed to do so by med. personnel).

Inhalation: Remove from exposure area to fresh air immediately. If breathing has stopped, perform CPR. Treat symptomatically and supportively.

Storage recommendations: Store in a cool dry place away from heat and protected from light.

Special Protection Information

Skin and eye protection required.

Special Handling Precautions

Handle with care.
